MAYORAL **F**OREWORD

Being the Mayor of Umtshezi Municipality, it is my obligation and responsibility to ensure that my Municipality is accountable and transparent. In order to do that I must reflect back and assess the manner in which the business has been carried more especially in delivering the best service to the people we serve.

Our budget for 2006/2007 was based on actual and forecasted to projected revenue and expenditure. Despite the fact that some of the ratepayers could not afford to pay our debt but managed to provide services to our citizens viz. electricity, maintenance of roads, refuse removal and attending community complaints successfully. We have managed to work with other parties and involvement of the community and ward committees. There has been some effective workshops which were very productive where in some of those workshops we developed a strategic plan to ensure compliance with IDP and SDBIP Policy.

We also managed to provide houses with good infrastructure of electricity, water, sewer and roads. We were able to work together with other spheres of government in terms of co-operative governance (national, provincial and local government). Some difficulties were also experienced in terms of key position that needs to be filled like Director of Finance and Senior Technician in the Civil and Structural Department. I am convinced that we will be able to address this situation in the current year.

My appreciation goes to the three spheres of government and commends dedication, commitment and support from my Municipal Manager and the Staff for trying their best despite the challenges that were there. I thank the support of the Deputy Mayor, Speaker and fellow Councilors. May God bless you all.

**HIS WORSHIP THE MAYOR:
COUNCILOR ML SHELEMBE
UMTSHEZI MUNICIPALITY**

REPORT OF THE CHIEF FINANCIAL OFFICER

1) INTRODUCTION

It is the time of year when, we take a snap shot, and look back into previous years financial performance and position of our Municipality, the results portrayed by the following statements should not only be viewed in rands and cents but also to the extent to which lives of the ordinary citizens of this Municipality have been changed.

It is unfortunate that the process of conversion from IMFO Statements to GRAP/GAMAP standards could not be finalised however resources will be channelled for the finalisation of this process.

The current year deficit of R 10,970,834 and appropriation of R6,726,487 have resulted in a deficit of R4,244,347 which increased the accumulated deficit of R 21 715 377 at 30 June 2007 to R25,959,724 at 30 June 2008.

The financial statements of the Municipality are normally prepared on the assumption that the entity is a going concern. The financial statements were prepared on this assumption but during the financial year there was doubt regarding the going concern of the Municipality. This was as a result of the Municipality incurring a net loss of R12,579,232 resulting in an increased accumulated deficit of R33,998,561. The bank was also in overdraft of R3,451,889 as at 30 June 2008 which also raised the concern relating to the going concern assumption. This matter is being addressed and measures are currently in place to ensure that the accumulated deficit decreases.

2) OPERATING RESULTS

Details of the results per department, classification and object of expenditure are included in appendices D and E. The applicable statistics are shown in appendix F. The overall operating results for the year ended 30 June 2008 are as follows :

DATE

ACCOUNTING POLICIES

1. BASIS OF PRESENTATION

- 1.1 These Financial Statements have been prepared so as to conform to the standards laid down by the Institute of Municipal Treasurers and Accountants in its Code of Practice (1997) and Report on Published Annual Financial Statements (Second Edition – January 1996).
- 1.2 The Financial Statements are prepared on the historical cost basis, adjusted for fixed assets as more fully detailed in Accounting Policy, Note 3. The accounting policies are consistent with those applied in the previous year, except if otherwise indicated.
- 1.3 The Financial Statements are prepared on the accrual basis:
Income is accrued when measurable and available for Finance operations. Certain direct income is accounted for when received, such as traffic fines and certain licenses.
Expenditure is accrued in the year it is incurred.

2. CONSOLIDATION

The Financial Statements include the Rate and General Services, Housing Service, Trading Services and the different Funds and Reserves. All inter departmental charges are set-off against each other, with the exception of assessment rates, refuse removal, sewerage, electricity, water and premiums charged by the Insurance Fund, which are treated as Income and Expenditure in the respective departments.

3. FIXED ASSETS

3.1 Fixed Assets are stated:

- At historical cost, or
- At valuation (based on the market price at date of acquisition), where assets have been acquired by grant or donation or repossession, while they are in existence and fit for use.

3.2 Depreciation

The balance shown against the heading "Loans Redeemed and Other Capital Receipts" in the notes to the balance sheet is tantamount to a provision for depreciation, however, certain structural differences do exist. By way of this provision, assets are written down over their estimated useful life. Apart from advances from the various internal funds, assets may also be acquired through:

- Appropriations from income, where the full cost of the asset forms an immediate and direct charge against the operating income, and therefore it is unnecessary to make any further provision for depreciation.
- Grant or donation, where the amount representing the value of such grant or donation is immediately credited to the "Loans Redeemed and Other Capital Receipts" account.

3.3 All net proceeds from the sale of all other assets are credited to the Capital Development Fund.

3.4 Fixed Assets are financed from different sources, including external loans, operating income, contributions and internal advances. These loans and advances are repaid within the estimated lives of the assets acquired from such loans or advances. Interest is charged to the service concerned at the ruling interest rate applicable at the time that the advance is made.

4. INVENTORY

Inventory is valued at cost, determined on the weighted average basis.

5. FUNDS AND RESERVES

5.1 Capital Development Fund

The Local Authorities Ordinance No. 25 of 1974, requires a minimum contribution of 3.0 percent of Revenue Income of a local authority for the financial year. One half of all interest earned by this fund remains in the fund and the other half is credited to the appropriate revenue account.

5.2 Loan Redemption Fund

The redemption of Estcourt stock is provided for the annual contribution, from borrowing accounts calculated on the estimated lifespan of assets acquired, in equal installments. Internal loans are repaid in relation to the lifespan of the asset. Redemption on government loans is paid half yearly on an annuity basis.

5.3 Public Improvement Fund

The Local Authorities Ordinance No. 25 of 1974, stipulates that this fund be maintained in respect of all property belonging to the Municipality, which is not utilized for a specific purpose relating to the provision of services. Fifty percent of all interest earned by this Fund is credited to Rate and General Services Revenue account.

5.4 Reserves

5.4.1 Vehicle Insurance Reserve

A reserve is maintained to provide for minimum payments due in respect of Insurance claims, and replacement (if necessary).

5.4.2 Repairs and Maintenance Reserve

This reserve is maintained to provide for extraordinary expenditure required on repairs to Buildings, Plant and Vehicles.

5.4.3 Estate Reserve

A reserve is maintained to provide for repairs and maintenance to houses held as assets of the Rate and General Services.

5.4.4 Dedicated Housing Account

In terms of Council Resolution No.373.8.94 (para 3) contributions to the Rental Loss and Community Facilities Reserve were suspended, but a Maintenance Reserve is still maintained and paid to the Dedicated Housing Account.

6. EMPLOYEE BENEFIT FUNDS

6.1 Joint Municipal Pension Funds (Superannuation, Retirement Fund and Provident Fund)

The Umtshezi Municipality and its employees contribute to the Kwa-Zulu Natal Joint Municipal Pension Fund and its Councilors to the Municipal Councilors Pension Fund, which provides retirement benefits to such employees and Councilors.

The Retirement Benefit Plan is subject to the Pensions Fund Act, 1956, with pensions being calculated on the final pensionable remuneration paid.

Current contributions are charged against operating income on the basis of current service costs. Unfavourable experience adjustments and the costs of securing increased benefits are written off over the lesser of the remaining period of service of employees, or five years. Favourable experience adjustments are retained in the Retirement Benefit Plan.

Full actuarial valuations are performed at least every three years.

6.2 The Umtshezi Municipality and its employees contribute to Key health Medical Aid, which provides Medical Aid benefits to employees.

The Medical Aids are subject to the Local Authorities Ordinance (Natal) No 25 of 1974. Current contributions are charged against operating income on the basis of current service costs.

7. SURPLUSES AND DEFICITS

Any surplus or deficit arising from the operation of the various services is retained in those services for their own use. A contribution in relief of Rates is effected from Electricity Service to Rate and General Service. Any surplus or deficit on the Housing Service is accounted for against Government Subsidy on the various schemes.

8. TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES.

The costs of internal support services are transferred to the different services in accordance with the estimated time spent and cost of facilities used.

9. LEASED ASSETS

Leases are treated as operating leases and the relevant rentals are charged to the operating account in a systematic manner related to the period of use of the assets concerned.

10. INVESTMENTS

Investments are shown at the lower of cost or market related value if a permanent decline in the value occurred and are invested as per Local Authorities Ordinance No.25 of 1974.

11. INCOME RECOGNITION

11.1 Electricity and Refuse Billings

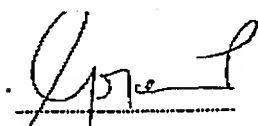

Meters on all properties are read and billed monthly.
Refuse is collected from properties weekly.

11.2 Assessment Rates

The Umtshezi Municipality applies a differential rating system. In terms of this system the assessment rates are levied on the Land, building and Building Clause value of property and rebates are granted according to the zoning and the area in which a property is located.

30 Matters Pending

The Municipality had conducted an audit of the vat system and had, as a result, submitted a claim to the Receiver of Revenue for unclaimed input vat of R6,430,438.83. The audit is still continuing.

31 Going Concern

The Municipality incurred a net loss of R12,570,232 for the 2007/2008 financial year resulting in an accumulated deficit of R33,090,561 and the municipality had a bank overdraft of R3,451,689 as at 30 June 2008. In addition there are unspent grants amounting to R34.7m as at 30 June 2008. However, the investments as of date total R28.3m resulting in difference of R6.5m not being supported by cash. These conditions, along with other matters, point to the existence of a concern of the going concern assumption.
